

## Sage Recognizes Tangerine Software as a Diamond Partner

Montreal, November 14, 2018 – Tangerine Software, a leading provider of Sage Enterprise Management and Nectari Business Intelligence software solutions, was recently recognized by Sage North America as a Diamond Partner for Tangerine’s outstanding performance in Sage’s FY18.

“This is truly an honor and a strong attestation of our entire team of Sage Enterprise Management consultants,” states Greg Brown, President of Tangerine Software. “2018 has been a remarkable year, from our growing number of new customers and consultants, to an excellent alliance with Sage globally. The foundation of success really is based on strong collaboration with others.”

Sage’s Diamond partnership represents the highest of four partner tier levels within the Sage ecosystem.
