

TWO NEW CUSTOMER SIGNINGS FOR ENTERPRISE MANAGEMENT

March 27, 2018 – **Tangerine Software** is delighted to announce two new customer signings for Enterprise Management (formerly known as Sage X3).

Forex

A major player in the forest industry, Forex focuses on meeting building and renovation market needs. Experiencing rapid growth in the last few years, the company invested over \$30M in a new production line to continue meeting market demands. Soon after it was realized that the company was experiencing a lack of integration, a duplication of information, and inefficiencies due to reliance on Excel. It was clear that they had outgrown their Sage 300 business software solution.

An ambassador for the Sage line of products, it was decided that the next logical step would be to manage their corporate growth by replacing their Sage 300 system to Sage’s Enterprise Management solution for small- and medium-sized businesses.

CMAC-Thyssen Mining Group

Recognized worldwide, CMAC-Thyssen is a mining contractor and equipment manufacturer that offers a wide range of fully integrated services. As a thriving, growing company and through the acquisition of a company in Morocco, it was determined that CMAC-Thyssen had outgrown its legacy ERP solution. Some of the “growing pains” they experienced included limited access to timely information and challenges in gaining a global view of the company’s operations.

CMAC-Thyssen Mining Group selected Sage’s Enterprise Management software due to its proven capacity to adapt and improve an enterprise’s growing and diversified business needs.
